**D**ear Friend,

If you have been suffering with the horrible, sometimes embarrassing symptoms of Staph Infections then you have definitely come to the right place.

Why?

Because I'm going to tell you the story of a "fiery 60 year old" who revealed to me, a secret 3 step plan that I have used to cure my Staph Infection in less than 12 hours...

Even better, I will show you how to do this 3 step plan in the comfort of your own home - no matter how long you've been suffering, or what caused it...

You see my name is Donna DeAngelo, I am a 45 year old mother of two and I live at 320 Elliott Ave, Seattle, WA, USA and I have been exactly where you are.

I came down with Staph Infection 2 years ago... To this day, I still don't know the exact cause, but what I do know is - it was painful...

What started off as a small pimple sized boil on my arm ended up being a gigantic, puss filled growth... disgusting!!

## **Pimple or Boil? How to Tell the Difference**

When my Staph Infection first started out, it just looked like a large pimple, I wasn't really worried until it didn't go away after a couple of days... So I started to do some research on the internet...

After hours of searching I figured that the only other thing it could have been was a Staph Infection...

I found a really simple **home test** that will tell you whether you have a pimple or a staph infection.

**Here's what you do to find out if it's a pimple or staph boil:**

- 1) Get some Hydrogen Peroxide 3% from the Chemist. Also get some cotton buds.**
- 2) Use the cotton bud to apply some Hydrogen Peroxide to the skin area in question.**
- 3) If it is a pimple it will form a white head within 5-10 minutes. If it is a staph infection it won't change color or may turn red.**

So when I did this technique, I was surprised when the lump on my skin didn't get a white head...

A quick trip to the doctor confirmed that I did in fact have a Staph Infection.

## **The Doctor's Antibiotics Didn't Work...**

I don't really know why I even tried the antibiotics the doctor prescribed. I rarely use them - the way I see it, antibiotics is like dropping an Atomic Bomb into your body... Sure it gets the bad guys - but it also wipes out a heck of a lot of good guys with them...

After 3 days on the antibiotics, my boil started to look like a golf ball was struggling to burst through my skin...

It was painful to touch and I didn't want to go out in public, because it just looked horrible.

## **The Girls Night Out that Cured my Boil... I'm Betting it Will Cure Yours Too!**

It started with an invitation to my friend Janine's house for a "Girls Night". Having never been

to one, I was excited, but scared.

Scared because my arm looked so disgusting and I was always worried I would infect someone else...

Anyway, I decided to go... and thank God I did...

A week later I arrived at Jan's house, bottle of wine in hand... Ready to do whatever it is girls do on a 'girls night'. I still wasn't sure...

I walked in and was immediately introduced to Theresa - the woman that was about to make this the best night ever...

Theresa was a 60 year old widower, but she looked, and behaved like a 30 year old swinger!! We hit it off... But Theresa's shocking and provocative sex stories, as interesting as they were, were not the most riveting thing she told me that night...

You see, after I spilled the beans on what that thing on my arm was, Theresa's eyes lit up... She said, "Hey, I've got a great remedy for Staph Infection that I learned years ago, it heals the Staph in about 8 hours".

**I thought she was going to reveal a miracle drug...  
But what she did reveal knocked my socks off...**

Well, she said, it's quite simple... I have a secret weapon...

What is it? I asked. Expecting her to start ranting about some new miracle drug she got from the Doctor... But she didn't...

Instead, she revealed a simple 3 step plan, using cheap groceries from the local Walmart...

**She went on to explain every step in further detail...**

**Step 1** - Use a 200 year old herb three times a day to penetrate the Staph and kill the bacteria at it's core.

**Step 2** - Apply a antibacterial cream to the infected area three times a day.

**Step 3** - Alkalize and detoxify your body in order to increase oxygen.

WOW! I was excited and eager to get started...

Theresa was kind enough to write down all of the directions onto a piece of paper for me. As I said I was eager to get started... so I rushed out to the shops the next morning and bought everything needed for less than 15 bucks...

I then put Theresa's techniques to the test... lo and behold... 12 hours later I peeled up the bandage I had on and I could not believe my eyes... My Boil had disappeared immediately.

After all the money I had spent on Over-the-Counter creams, antibiotics and a "miracle" cream I got from some website called bexatrol - after all the money I wasted on this miracle stuff - **all I needed was a few groceries from my local store they cost less than 15 bucks!!!**

### **The 3 Step Formula... Revealed**

Well, after giving Theresa a lovely bottle of wine and some chocolates... I discussed with her at length, how we can let other Staph sufferers know about this great plan...

We both came to the conclusion that the Internet would be our best bet... but there was one small problem... We knew nothing about computers or the internet!!

So here's what I did...

I went and learned computer basics and I then created a Report on my computer, which I named **Staph Infection Cure!!**

I then hired a Website Designer... Who helped us out with the technical stuff for discounted rates because he liked what we were trying to do...

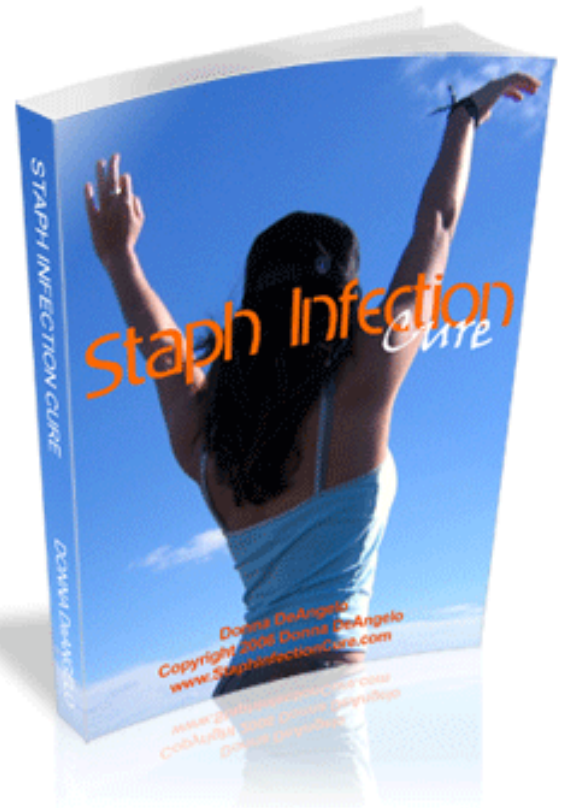

So here is the result...

**The Staph Infection Cure - A simple, straight forward report that tells you exactly how to make your Staph disappear in 12 hours...**

It's now available for you to view right on your computer screen...

I'll explain exactly how to do this later on... but for now... just have a look at what we were able to squeeze into this life changing report...

- The “Sex Crazy 60 Year Old” 5 Step Plan to eliminating Staph in 12 hours flat.
- A simple remedy that will kill bad bacteria.
- How to avoid getting Staph boils ever again.
- 7 super effective "little-known" Staph remedies that cost less than \$5 from your local store.
- A drinkable remedy that will detoxify your body and cleanse your blood - this is essential to getting rid of Staph.
- How to supercharge your immune system so that it can "kick the but" of your Staph bacteria.

*Staph Infection Cure - The 3 Step Program I used to End my Staph...*

Since I have made Staph Infection Cure available from this website, I have received 137 emails from people all over the World who have used Theresa's remedy to heal their boils immediately...

*Dear Donna,*

*I got your Report a week ago and I have some great news. I am now Staph free. I just drank your mixture before bed, applied that cream and in the morning when I woke up (9 hours later, the lumps were completely gone...*

*Please thank Theresa too, you are both great women.*

*Thanks,*

**Susan Hodges – Dallas, Texas**

*Hi Donna,*

*Just emailing you to let you know that your 3 step plan worked great for me.*

*When had Staph boils rising up over 2 weeks ago, I went to the doctor and he gave me some antibiotics.*

*I tried using the antibiotics and the damn things were a waste of money, they didn't do anything. Actually the boil had filled up with pus during the week I was on antibiotics.*

*Then I tried a online treatment I ordered - I believe it was called bexatrol (is that the one you tried). That really didn't do anything.*

*In desperation I got your report and what can I say. It took me a little longer than 12 hours, but is was about 20 hours before I was completely boil free.*

**Naomi Graer – Chicago, IL**

---

*Donna,*

*I have been going through staph for 2 years on and off. Everytime one heals it seems to come back in another spot on my body. The only regret I have about your report is that I didn't find it earlier.*

*Using your 3 step remedy I have been able to quickly get rid of my boils before I have the chance to spread it to other areas of my body.*

**Barbara Dressinger – Atlanta, GA**

---

*I went out last night for the first time in a month – because of you. I am now more confident than ever. Before my staph infection was visible for everyone to see and I was a little paranoid.*

*Thanks for your info.*

**Jason Everett – Melbourne, Australia**

---

*I am writing to you to let you know about my experiences with your report – Staph Infection Cure.*

*When I got your report I was desperate to say the least. I decided to follow Theresa's 3 step plan, the plan seemed to start working immediately. My staph boils started to disappear within the first 4 hours of the plan. 8 hours later, there was only a faint redness where the boils were... im cured!!!!*

*Thanks,*

**Craig Belamy, Ontario, Canada**
